Download a map to use offline

1. On your iPhone or iPad, open the Google Maps app .
2. Make sure you're connected to the internet and **not in Incognito mode**.
3. Search for a place, like **San Francisco**.
4. At the bottom, tap the name or address of the place > tap More ... > Download offline map.

Select your own map

1. On your iPhone or iPad, open the Google Maps app .
2. Tap your profile picture or initial  > Offline maps.
3. Tap Select your own map.
4. Adjust the map according to the area you want to download.
5. Tap Download.

Use offline maps

After you download an area, use the Google Maps app just like you normally would. If your internet connection is slow or absent, your offline maps will guide you to your destination as long as the entire route is within the offline map.

Turn off Incognito mode for Google Maps

1. On your iPhone or iPad, open the Google Maps app.
2. In the top right, tap your profile picture.
3. Tap Turn off Incognito mode.
